MEMBERSHIP

5.1.1 Any person who, in terms of the Deeds Registries Act and/or the Sectional Titles Act, is registered as the owner of any Unit or Land, as reflected in the records of the Deeds Registry Office, shall be deemed to be a Member. Membership of the Company shall be limited to any person, who is so registered.

5.2.1 The registered owner of land or a unit may not resign as a Member of the Company.

6.1.1 A Member shall not in any manner alienate any Unit or Land unless it is a condition of the agreement of alienation that –

6.1.1.1 The proposed transferee has bound himself in writing, to the satisfaction of the Company to become a Member of the Company, upon transfer of the unit or land to him; and

6.1.1.2 The registration of transfer of that Unit or Land into the name of that transferee shall ipso facto constitute the transferee as a Member of the Company.

6.6 No Member shall let or otherwise part with occupation of his Unit whether temporarily or otherwise unless he had agreed with the proposed occupier of such Unit as a stipulatio alteri in favour of the Company that such occupier shall be bound by all terms and conditions hereof and of the House Rules.

7. Save as provided for herein the rights and obligations of a Member shall not be transferred and every Member shall -

7.2 Observe all house rules.

HOUSE RULES

10.3.2 In the event of any breach of the House Rules by the members of any Member’s household, or his guests, or lessees or any other person to whom the Member has given occupation or access to, the Member shall be liable as if such breach has been committed by the Member himself, but without prejudice to the foregoing, the Directors may take or cause to be taken such steps against the person actually committing the breach as they in their discretion may deem fit.

10.3.3 In the event of any Member disputing the fact that he has committed a breach of any of the House Rules aforesaid or that the members of any Member’s household, or his guests, or lessees or any other person to whom the Member has given occupation or access to has committed a breach of the House Rules, a committee of three Directors appointed by the Chairperson for the purpose, shall adjudicate upon the issue at such time and in such manner and according to such procedure (provided that natural justice shall be observed) as the Chairperson may direct. Any fine imposed upon any Member shall be deemed to be a debt due by the Member to the Company and shall be recoverable by ordinary civil process.

10.3.7 Where a Member disputes an act, decision or ruling by the Directors, or where relevant notices by either the Town Planning and Amenities Committee or the Finance Committee have been given to any Member in terms of these Articles, such dispute must be declared in writing (setting out full
particulars of the dispute) within 7 (seven) days of such act, decision or ruling. Such declared dispute shall then be resolved by a tribunal appointed by the Chairperson of the Board, at such venue, date and time decided upon by the Chairperson. That tribunal is the only forum with jurisdiction to resolve such declared dispute. The tribunal may consist of Directors or any other Member or person not being a Member, at the choice of the Chairperson. The tribunal shall determine the form and method of resolving the dispute. The decision of the tribunal is final.

I.2 Homeowners, who choose to install household generators, should take the following rules for installation into consideration:

I.2.1 The noise level of the generator should not exceed 50 decibels at 1 meter. Mufflers, the Trex System or a French Drain System should be used to obtain the correct noise reduction level. The noise level will be tested by management subsequent to installation to ensure compliance.

I.2.2 Only one diesel-driven, single phase generator of maximum 6 KVA (26 Amps – 6000 Wattage) per villa will be allowed. The rated amount of wattage used per villa should therefore be 90% (5400 watts).

I.2.11 Diesel fuel for the generator may be stored in the fuel reservoir of the generator, but not in separate containers inside the generator room.

I.2.13 The generator should be connected directly to the main Electrical Distribution Board (DB) in the villa though an Automatic Change Over Switch (ATS), connected to a timer. The timer should be set so that no generator is started on the Estate between 22:00 and 06:30 the next morning, even if a power failure occurs.
I.2.14 The ATS has a control cable of 5 meters connecting the generator’s electronic panel to the ATS and it is advised that the ATS does not exceed 5 meters from the main Electrical Distribution Board (DB) inside the villa to the generator.
I.2.15 The wiring of the generator should be connected to one phase on the DB Board and that phase to each circuit breaker where power is required, bearing in mind the rated wattage used in the villa during power failures.
I.2.16 Proper heavy-duty power cords should be used and should be concealed and or covered.
